Model 6313 Air Jet Shim Set

This stainless steel shim set includes (1) .006" (.15mm) thick shim and (1) .009" (.23mm) thick shim. Shims may be interchanged (not stacked) to change the air gap setting. The shim thickness sets the air gap opening.

Larger air gaps give more flow and higher velocity. Air consumption doubles if the air gap opening doubles, etc.

If you have any questions or problems, please contact an EXAIR Application Engineer at:
